

## Product Data Sheet

Manufacturer : DIGITRON

Model : 2000P Series Micro-manometers Page 1 of 2

No matter what the application or how demanding the environment, Digitron's 2000P series of hand-held pressure meters have been designed for the professional who won't take chances.

With emissions legislation, fuel costs and concern over the working environment all on the increase the need for reliable instruments has never been greater.

Digitron's 2000 series have been designed to provide precise, stable readings even in the most demanding conditions

Easy to use , reliable and built to last, the 2000P series has been specially developed in order to meet the performance & cost demands of today's industrial and HVAC professionals. The 2000P series of pressure instruments offers a wide range of new innovative functions designed to make the operators job easier.

### FEATURES

Features dependant upon model see table. Example features

- Various Pressure ranges available upto to 10 bar gauge, or 2 bar absolute.
- Automatic leak testing
- Logging (on demand and at pre-set intervals. Only specific models)
- Windows™ graphic data analysis (optional)
- Two year warranty
- Waterproof to IP67
- Pressure Scales in mbar, bar, Pa, kPa, PSI, inH2O, inHg, mmH2O & mH2O.
- Back light
- Smoothing

Whilst every effort has been made to ensure the accuracy of the information given in this data sheet, no liability is given or implied for any error or omission contained herein. Due to our policy of progressive improvement, **BSRIA Instrument Solutions** reserve the right to change products and/or services without notice. Accuracies shown above are those stated by the manufacturer, **BSRIA Instrument Solutions** accuracies for Hire instrumentation may differ from those claimed by the manufacturer.

Many names used in this data sheet are the trade mark names of their manufactures; **BSRIA Instrument Solutions** acknowledges all registered trade marks.

**Product Data Sheet**

**DATA LOGGING ( Model specific, see table. )**

Data collection at the touch of a button. The 2000P series logging functions, on demand or preset interval, enable readings to be stored retrieved & downloaded to a printer or PC, all at the touch of a button. This enables error free and fully traceable records to be maintained.
