

Hawkeye Precision Borescopes

Pro SuperSlim Kits

Lengths: 4" and 8" – Dia: 0.095" (2.4mm)
 Lengths: 10", 14", 17" – Dia: 0.110" (2.8mm)
 FOV 40°

Pro SuperSlim - Now in longer lengths

At 0.095" in diameter, or 0.109" with a mirror tube, the original Hawkeye Pro SuperSlim borescopes give sharp, clear views of the microscopic holes on spray tips and nozzles. Use them to inspect small bores for burrs and surface finish. Now 10", 14" and 17" models are available with slightly larger diameters to make them more rugged.
